Allowable Subject Matter

Claims 1-40 are allowed.

The following is an examiner's statement of reasons for allowance: Each of the above claims is allowable over the cited prior art at least because none of the cited prior art shows or fairly suggests a dual action valve for use in molten metals including two float means (the inlet float member and the outlet float assembly of independent claims 1 and 25) which accurately meter the molten metal flow through the valve while substantially eliminating any reverse molten metal flow through the valve.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Each of Sample et al'674, Sample et al'508, Wagstaff et al and Fehling et al are also cited as further examples of prior art molten metal valves.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Scott Kastler whose telephone number is (571) 272-1243. The examiner can normally be reached on Monday through Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Roy King can be reached on (571) 272-1244. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.
